## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-13 and 30 remain rejected under 35 U.S.C. 103(a) as being unpatentable over EP 596,580 for the reasons of record in the previous office action.

### ***Response to Arguments***

3. Applicant's arguments regarding the double patenting rejections are persuasive. While the claims or the references recite cationic starch with no molecular weight range recited, it is clear from the specification that an upper limit of 1,000,000 for the MW was contemplated by those inventors. Applicant's recitation of a lower limit of MW overcomes the rejections.

Applicant argues that the examiner has not shown how the disclosure of the EP makes the presently recited MW range obvious. This is not persuasive because the reference discloses that all cationic starches are suitable. Accordingly, all molecular weights of cationic starch are useful.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1751

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
